

EXPORTING YOUR FINISHED ANIMATION

1. Select the element with the movement cycle template drawn from the handout.
2. Delete the element by clicking on the red minus sign above the element window.
3. Select FILE>SAVE AS. Save your file as follows: YOUR NAME CHARACTER, for example, "MAZUR CHARACTER".
4. Select FILE>EXPORT MOVIE.
5. The Export window opens.
6. Select QuickTime Movie from the Export Settings drop-down menu.
7. Select OK.
8. Your animation will open on your desktop as a QuickTime movie. Play the movie to see if it is working properly. Close when done.
9. Exit Toon Boom.
10. Click on your desktop. The word "Finder" should be next to the Apple icon at the top of your screen.
11. Select GO>HOME.
12. The Home folder opens.
13. Click once on the file "output.mov".
14. Click once more on the file "output.mov".
15. The word "output" is now highlighted.
16. Type YOUR NAME CHARACTER.
17. Drag the file to your desktop.
