

# MEET THE MODERN DAY DINOSAUR, THE JAVAN RHINO

THE JAVAN RHINO LIVES IN SOUTH-EAST ASIA. THIS ANIMAL EATS LEAVES, FLOWERS, BUDS, FRUITS, BERRIES, AND ROOTS. THIS ANIMAL IS EXTREMELY ENDANGERED WITH ONLY 60 RHINOS LEFT OF THIS SPECIES IN THE WILD. THIS ANIMAL IS SLOWLY COMING BACK TO LIFE WITH OUR HELP. THIS ANIMAL HAS ITS OWN RESERVATION IN INDONESIA WHERE POACHING OF THIS ANIMAL IS ILLEGAL. NO ONE ENTERS THE RESERVATION BESIDES THE RHINO PROTECTION UNITS. THIS ANIMAL HAS A VERY DISTINCT AND UNUSUAL FEATURE. IT HAS AN UNUSUALLY SMALL HORN AND THIS RHINO IS SMALLER THAN OTHER RHINOS. THIS ANIMAL IS BEING HUNTED TO EXTINCTION. HELP SAVE THIS SPECIES. VISIT [WWW.WORLDWILDLIFE.ORG/SPECIES/JAVAN-RHINO](http://WWW.WORLDWILDLIFE.ORG/SPECIES/JAVAN-RHINO) FOR MORE INFORMATION.

DIGITAL IMAGING

ENDANGERED WILDLIFE POSTER

# ENDANGERED ANIMAL POSTER

As human populations increase and require more resources, wild animal populations decline.

# ENDANGERED ANIMAL POSTER

Many animal species are threatened or endangered. The loss of these animals would not just be a threat to our cultural heritage...

<u>Giant Kangaroo Rat</u>	California
<u>Gray Wolf</u>	Mexico, United States
<u>Hualapai Mexican Vole</u>	Arizona
<u>Jaguar</u>	Arizona, California, Central and South America, Louisiana, Mexico, New Mexico, Texas
<u>Jaguarundi</u>	Arizona, Costa Rica, Mexico, Nicaragua, Panama, Texas
<u>Killer Whale</u>	Southern Resident DPS (Canada, USA - WA)
<u>Mantled Howler Monkey</u>	Mexico to South America
<u>Margay</u>	Central and South America, Mexico
<u>Mexican Bobcat</u>	Central Mexico
<u>Ocelot</u>	USA (Arizona, Texas) to Central and South America

# ENDANGERED ANIMAL POSTER

...But with the loss of biodiversity, ultimately a threat to the survival of human beings.

# ENDANGERED ANIMAL POSTER

Your task is to create a public service poster to raise awareness of threatened and endangered animals.

Help Save The  
Green Sea Turtles

Green sea turtles are endangered because they find pollution like plastic bags and eat it thinking it's food like a jellyfish. They're also endangered because they get caught in nets made to catch fish. Help keep our pollution away from the ocean and keep fishermen aware of what's going in their nets. For more information visit [savethegreenseaturtles.com](http://savethegreenseaturtles.com)

# ENDANGERED ANIMAL POSTER

Your poster should include:

- An original, full color drawing of a threatened or endangered animal
- A headline
- Photoshop tools and filters
- 8.5" x 11" page size
- 300 PPI resolution

# ENDANGERED WILDLIFE POSTER

## DEADLINES:

April 30 – Animal Research

May 22 – 2 Rough Layouts

May 22 – Headline

May 22 – Body Copy

June 2 – Final Layout

June 3-5 – Presentation
