

RELATED MEDIA WORKSHEET #2

Archival Video

This chart will help you look at the video that you find. Possible places to find images depend on the nature of your project. Good places to find material are the Internet, home videos, books, magazines, university libraries, the video store, television, your subject's videos. Also, you need to consider whether the videos are in digital format or not. If they are not, you either need to digitize them onto your computer via your video camera or FireWire converter (RCA to FireWire). Be sure to rewind and reset the time code on your VCR before viewing.

Description of video (type video, content and time code)	Where did you find it?	How is it related to your topic?	Rate video in regards to documentary relevance and quality (1-10)
