

TRANSFERRING VIDEO FILES FROM A CAMERA TO PREMIERE PRO CC

1. Open an existing project or create a new project in Premiere Pro.
2. Use a USB cable to connect the camera to the computer.
3. Power on the camera.
4. Set the camera to playback mode and select source and destination locations (for example, "internal memory" or "computer/DVD").
5. Select MEDIA BROWSER in the PROJECT PANEL (lower left quadrant).
6. Select the camera will in the Media Browser.
7. Thumbnails of the video clips will appear. Drag the clips to the Project tab.
8. The Project Panel will open and the clips will be imported.
